

SECRET

CONTACT REPORT

PROJECT: CADROIT

DATE AND TIME: 13 APR 54 - 1730-2030 hrs

PRESENT: CARBOHYDRATE and [ ]

PLACE: CARBOHYDRATE's Home

1. The first matter discussed was that of CARBOHYDRATE's assistant-to-be, Koch. C. brought along Koch's personnel file which had been brought up more to date than previously with a number of letters received from character witnesses. Each of these letters were discussed and it appeared that all of these persons thought very highly of Koch.

(A sidelight into [ ] personality came up in the discussion. The Koch file contains his picture and the remark was made that Koch appeared younger than his actual age. C. mentioned that that was so, but his (K's) mustache helped to dispel that illusion. C. then mentioned that [ ] had taken exception to this "blonde mustache" and had stated that Koch should shave it off. His reason was that a mustache should be worn by those in authority (sic). C. stated that oddly enough, [ ] is the only person in CADROIT who has a mustache.) CARBOHYDRATE was informed that Koch would be able to start work as soon as he could be notified and that this position should be explained to him as only being provisional for three months.

2. The matter of joint meetings between C, [ ] and the undersigned was again discussed with C. It was explained to him that the matter had been discussed with [ ] and that the latter had given the proposal hearty endorsement. The change in the proposal (i.e. that [ ] and [ ] will be told that the undersigned is arranging an introduction to C. thru [ ] people") was also told CARBOHYDRATE. The latter appeared quite pleased with the prospect of joint meetings.

3. The remainder of the meeting was spent in a sentence by sentence discussion of the first part of the security check sheets. Some re-working of the questions will be necessary and some questions are going to be deleted since the conditions "on the ground" [ ] are such that the questions are not accurate.

4. CARBOHYDRATE turned in a revised report concerning the activities of the FDJ in the vicinity of Klein Macknow. Instead of 6 trucks as he originally reported, the exercise involved 60 trucks (according to the report).

5. Following the meeting, proper, CARBOHYDRATE mentioned some details concerning himself and his hobbies. His greatest interest outside of his work appears to be photography and he has a small collection of cameras (Leica, etc) and his own darkroom equipment including an enlarger. He ~~xx~~ should the undersigned some quite passable examples of his work. C. also mentioned that he was very interested in taking up an old sport of his, rowing, on the Havel this summer. During the Third Reich, CARBOHYDRATE was a sport leader in the HJ. According to C's wife (who also appeared during the latter minutes of the meeting), C is also an avid "short wave listener", almost to the extent that it could be considered a hobby. CARBOHYDRATE collects books also - usually classics. His wife is an amateur artist and the home is wall filled with examples of her paintings.

NEXT MEETING: 20 April 54
